

# Clear Coats Made Clear

## CLEAR DECKING STAIN

**STRENGTH:** Toughest and most water-repellent  
**SURFACE:** Horizontal and vertical  
**LIFESPAN:** 1-3 years depending on wear & tear + exposure  
**COVERAGE:** 8-12 sq meters/litre  
**COST:** £47.00 for 5 litres (sold in 2 x 2.5 litre tins)  
**MAIN USES:** Clear Decking Stain is recommended for use on decking when a coloured stain is not desired. It can also be used as a protective top coating

## CLEAR ROYAL EXTERIOR

**STRENGTH:** High spec joinery grade product producing a hard-wearing water-repellent coating  
**SURFACE:** Horizontal and vertical  
**LIFESPAN:** 3-5 years depending on wear & tear + exposure  
**COVERAGE:** 6-10 sq meters/litre  
**COST:** £62.99 for 5 litres  
**MAIN USES:** Use on own or as protective top coat over coloured coating from any wood stain. Use in areas of high exposure or on products such as garden furniture and planters that are subjected to high levels of wear & tear

## CLEAR TOP COAT

**STRENGTH:** Hard-wearing, highly water-repellent coating  
**SURFACE:** Vertical  
**LIFESPAN:** 2-4 years depending on wear & tear + exposure  
**COVERAGE:** 6-12 sq meters/litre  
**COST:** £34.99 for 5 litres  
**MAIN USES:** Use on own as weather-proof coating or as top coat to add extra protection to Wood Stain & Protector coloured coating. Apply to exposed sides of sheds and fences to prolong life of coloured coating

## CLEAR STABLE COAT

**STRENGTH:** Highly water-repellent wood stain  
**SURFACE:** Vertical  
**LIFESPAN:** 1-3 years depending on wear & tear + exposure  
**COVERAGE:** 8-12 sq meters/litre  
**COST:** £26.50 for 5 litres  
**MAIN USES:** Designed to be used as a weather-proofing water-repellent coating on pressurised/pre-treated timber buildings, animal housing and outhouses, where a coloured finish is not desired

### NOTES:

Please note that whilst our clear stains filter UV light and slow-down the weathering process, they do not include a UV blocker so when applied to bare or untreated timber, the wood will still grey naturally over time.

In their liquid form, all of our Clear wood stains are milky in appearance but once applied will dry clear.
